Passed with 65.17 %

Academic Projects

Title	E- Learning Application
Technology	Flutter, Dart, MySQL and JSP
Responsibility	Mobile Application Developer
Link	https://cyrlearnings.com/

This is a simple e-learning mechanism and easy way to carry out the education activities and encourage in real-time communication between students and teachers in a college. There are mainly two users, teachers and students and there will be a super admin. Teachers can upload their class in this application and students can access it. The super admin will manage the users of this application.

Key Projects Handled

Title	Cyra Learnings Mobile Learning Platform
Technology	Python Django, MySQL, HTML, CSS, JS & Flutter
Responsibility	Full Stack Developer

Cyra Learnings is a Mobile Based Learning Platform for competitive exams like CUET and UGC NET.

Students can register in the app and select their examination and attend video classes, doubt clarification, download study materials, etc. Students can practice MCQ based exams and analyze their performance can identify strength and weakness in various topics.

Server side for this application is developed in Python Django and MySQL used for data storage. Admin can manage different exams, courses, MCQ Exams, etc. Rest Apis for Mobile Application is implemented using rest_framework in Django.
